HOFF OF TUCSON

BELOW IS A CUT OF THE TERRITORIAL RENOWNED CHARLES F. HOFF, COMMONLY known as HOFF, of TUCSON. Mr. Holf is Manufacturers' Agent and Merchandise Broker, with headquarters at Tucson. He is the gentleman that has agitated the windmill question so much, the results of which are being seen all over the Territory, and which is turning the barren deserts into blooming gardens.

THE AERMOTOR WINDMILL Shows an increase of 35 per cent in power over all other mills. The wheel is entirely of STEEL; Sun, Rain or Storm therefore have no effect on the same.

It is sold with or without TILTING TOWERS. FIXED TOWERS are the cheapest, but the TILLING TOWER is the most convenient; same brings the wheel down to the ground for oiling. Think of it: the wheel comes down to you.

The ÆRMOTORS have from a to 16-inch strukes. Three revolutions of the wheel to one stroke of the pump allows it to start up-easier under a heavy load, and runs when other wheels are idle, not being "quite" sufficient wind to run other mills. The wheel itself being so LIGHT, runs so much faster when started, and thus gains more in speed than it loses in the stroke. But these are only a few reasons why the ÆRMOTOR is superior in Power, Construction and Durability to all other wind-motors. However, so far as the power of the wheel is concerned, the greatest
